Self-Improvement. Every real and searching effort at self-improvement is of Itself a lesson of profound humility. For we cannot move a step without learning and feeling the waywardness, the weakness, the vacillation of our movements or without desiring to be set upon the Rock that is higher than ourselves .--W. Advancing the Farmers' Interests. Traveling agents and salesmen are now sent from the home offices of the Chicago packers into all South American and Asiatic countries. They are going into every land, no matter what language may be spoken or what money be used. They will exchange their goods for cowries or elephant tusks-anything to sell the product and get something in return convertible into money. It may seem odd to some folks, but traveling men, carrying cases with samples of American meat products, can be seen in the desert of Sahara, the sands of Zanzibar or in Brazil.
